CONTAINER ORCHESTRATTION

ABOUT

We're a mix of engineers, infrastructure architects and strategic consultants. Our engineers have over 15 years of experience in designing highly available, cost efficient, fault tolerant, geographically distributed and scalable systems.

ADOPTING OUR TEAM LEADS TO:

- enabling ongoing, active collaboration between developers and IT operations people
- shorter development cycles and increased deployment frequency

THE RESULT?

- quick and smooth deployment of new services
- your products and services go faster to market by a minimum of 20%

SERVICES

We give you support for a variety of tools spanning from source code control to build automation to testing to deployment to monitoring.

Service Lines: Managed Technical Support, IT Consulting, IT Concierge, Production Infrastructure Management.
